

EDURANT® (rilpivirine) EDURANT - Missed Dose

SUMMARY

- If the patient misses a dose of EDURANT or EDURANT PED within 12 hours of the time it is usually taken, advise the patient to take EDURANT or EDURANT PED with a meal as soon as possible and then take the next dose of EDURANT or EDURANT PED at the regularly scheduled time.¹
- If a patient misses a dose of EDURANT or EDURANT PED by more than 12 hours, advise the patient to not take the missed dose, but resume the usual dosing schedule.¹
- Inform the patient that he or she should not take more or less than the prescribed dose of EDURANT or EDURANT PED at any one time.¹

LITERATURE SEARCH

A literature search of MEDLINE®, EMBASE®, BIOSIS Previews®, DERWENT® conducted on 15 November 2023 did not identify any relevant citations pertaining to this topic.
